## about the author

Kaloyan Krastev is a software developer since 2000 with more than twenty years of experience on linux platforms. He has designed applications with command-line, web and graphical user interfaces. The source code is in multiple object-oriented programming languages, mainly python and C++. His recent works are dedicated to embedded operating systems design and applications for embedded devices. Learn more in his [CV](#).

He has done precise measurements, experimental data analysis and online visualization during his education (a PhD in particle physics) and later in science, industry and for fun. In addition, he is an expert in open-source software. A lot of technical writing and almost one hundred talks were presented during his professional career in Bulgaria, Germany, Italy and France. Find a linked list to his recent projects in [Table 1](#).
