

# welcome to [kaloyansen](#) public repositories on github

Kaloyan Krastev\*

Wednesday 13<sup>th</sup> March, 2024 <sup>†</sup>

I am a software developer since 2000 with more than twenty years of experience on linux platforms. I have designed applications with a command-line, web and graphical user interface programmed in multiple programming languages. However, my classes are written mainly in python and c++. Learn more about me [here](#).

My last projects were dedicated to embedded operating systems as well as dedicated application. As a physicist by education I have strong skills in scientific data analysis and online visualisation.

- last projects
  - [sinfo](#) - a compact graphical system performance monitor written in c++
  - [poky linux with a compact performance monitor on \*Raspberry\*  \$\pi\$](#)
  - [introduction to linux](#)
  - [a perl web catalogue with docker-compose](#)
