

# kalo public repos

code by Kaloyan Krastev

Last update: Friday 15<sup>th</sup> March, 2024, revision: 3111

## about the author

Kaloyan Krastev (Kalo) is a software developer since 2000 with more than twenty years of experience on linux platforms. He has designed applications with command-line, web and graphical user interfaces. The source code is in multiple object-oriented programming languages, mainly python and C++. Recently working on embedded operating systems design and applications for embedded devices (see Figure 1). Learn more in his [CV](#).

The author has done precise measurements, experimental data analysis and online visualization during his education (a PhD in particle physics) and later in science, industry and for fun. In addition, he is an expert in open-source software. A lot of technical writing and almost one hundred talks were presented during his professional career in Bulgaria, Germany, Italy and France. Find a linked list to his recent projects in Table 1.
